

Qn 3 - Infinity

Say Hola to Halo

## WAKE UP SPARTAN! WE'VE GOT WORK TO DO

The Harbinger has been awoken, thanks to the work of Escheraum and the Banished. She has assumed control over Zeta Halo and has initiated the Spires. If all the spires become Active, nothing will stop her and the Banished from Firing this Ring, Killing every living thing in the Universe. We MUST stop her from accessing the Command Spire at all costs? Are you ready to finish the fight, Spartan?

## Our Mission?

In order to access the Command Spire, we require **Four Sequencing Keys**. I guess she didn't want us interfering, because the keys seem to be encrypted. I will try to help you out as much as I possibly can.

Are you ready for this Spartan?

## 1. Sequence Key Alpha (8 points)

*First Sequence Key Located. Accessing... Huh, this seems to be protected by some kind of encryption. You're gonna have to find the answer to the given context in order to break it:*

*"I was designed as a shadow of my own creator.*

*I was then assigned to assist John, better known as Master Chief.*

*But **in the time between those events**, There was another. Another... Spartan.*

*It was my Guardian, who made sure I was safely delivered on Reach.*

*If not for their help, I would have been lost forever.*

*Their **SACRIFICE** set **EVERYTHING** in Motion.*

*State the Name of my Guardian.*

*Hint: Moments before **THE FALL OF REACH**, This Guardian was a member of a **SQUAD OF SIX**, each **NOBLE**, to their cause.*

2. Sequence Key Bravo (8 points)

*Okay. Next Sequence Key located.*

*Accessing.....*

*Hmm... it looks to be like some kind of Encrypted Message. I guess you have to crack it to obtain the Key.*

*TAhegesaEiinrndl#lI2ei0sw2s1*

*Hint: In 10 MINUTES, all FENCES must be lifted and the PRODUCTION RAILS must be up and running.*

### 3. Sequence Key Charlie (8 points)

*Okay, the Third Sequence Key. Accessing files.....*

*Wow, the Encryption seems to just keep getting Stronger. Okayyy, this is random. There seems to be an image file and it asks us to identify something. Transferring it to your HUD now...*

*The UNSC have obtained new info about the Banished Leader, Atriox. The intel was stored in the vehicle displayed in the above image. Unfortunately the coordinates to the Vehicle's location were intercepted and corrupted during transmission, so we have no idea where it is.*

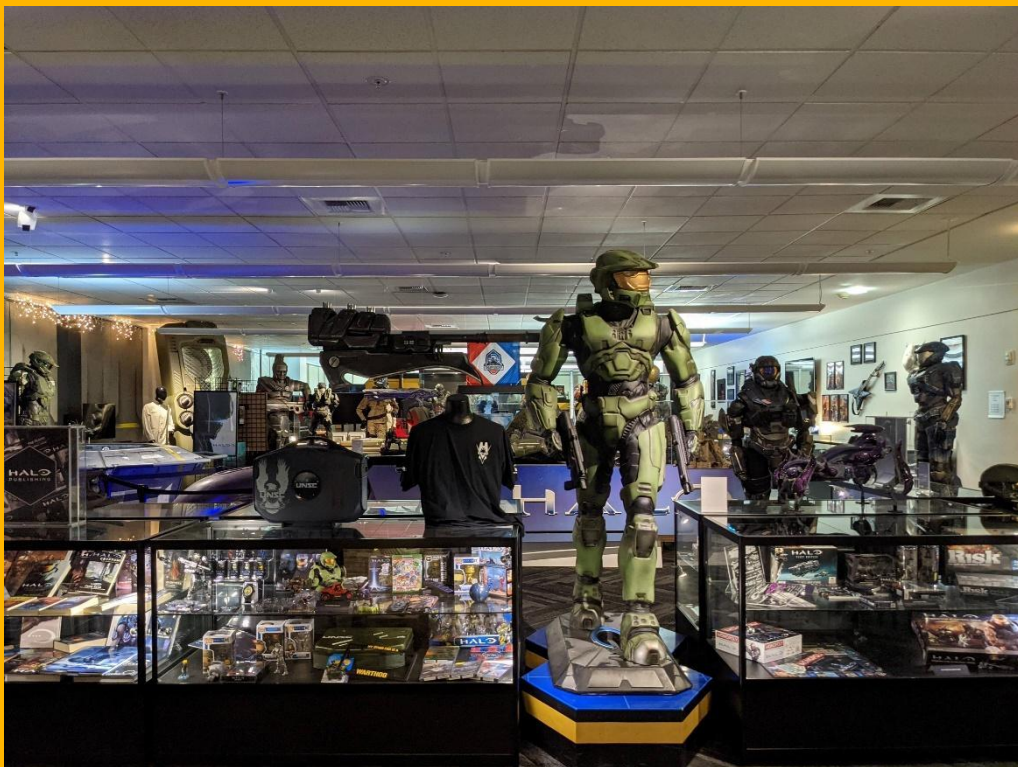

*There is a visible license plate in the image. Your task is to identify the **COUNTRY** where it is issued. Name it right and the Encryption is broken.*

#### 4. Sequence Key Delta (6 points)

The Final Sequence Key. At last. Let's get this over with.

Accessing data.....

Okay. The final encryption sequence. Break this and we will have obtained all four keys to access and shut down the spire. You know what to do.

This is where my **Legacy Lives On**. All of my feats and Achievements **over a period of 20 years** is present at this location. Your task, is to

determine **WHICH CITY** it is located in, and also mention **WHO OWNS** the building in question.

Hint : The Owner of the Building is **NOT** a Fortune 500 Company

## CONGRATULATIONS SPARTAN!! WE DID IT!!

Great Job Spartan!! We've successfully prevented the Harbinger from Activating the Ring.....for now. There is no doubt she may try to activate it again, but we'll be ready.

Until then...
